Policy Context

Technologies and the internet, including social media, are powerful tools which provide excellent opportunities for learning and teaching. They can motivate learners, promote creativity, and support effective learning, assessment and engagement with parents. They also bring opportunities to enhance teaching, increase staff efficiency and provide opportunities for staff to benefit from professional development through networking and collaboration. All users have an entitlement to good, safe access to ICT and the internet.

This policy relates to use of all technologies including mobile phones, tablets and online services such as social networking sites. It is intended to ensure that:

- Staff and volunteers are responsible users and stay safe while using technologies
- School ICT systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- Staff are protected from potential risk from the use of ICT in their everyday work and that they work to ensure that young people in their care are safe users.
- The organisation is protected from any issues that could negatively affect its reputation

This policy is written in the form of an agreement which details the expectations of, and for, staff and volunteers.

Acceptable Use Policy Agreement

Content

- I know that all school ICT is primarily intended for educational use and I will only use the systems for personal or recreational use if this is allowed by the school.
- I will not upload, download or access any materials which are illegal (child sexual abuse images, criminally racist material, adult pornography covered by the Obscene Publications Act) or inappropriate or may cause harm or distress to others.
- I know that internet use is proactively monitored and any illegal activity will automatically result in police involvement
- I will not make large downloads or uploads that might take up internet capacity.

Contact

- I will communicate online in a professional manner and tone and I will not use aggressive or inappropriate language and am aware that any communication could be forwarded to an employer or governors.
- I will only communicate with students / pupils and parents / carers using official school systems.
- I will not use personal email addresses on the school ICT systems.
- I will not open any attachments to emails, unless the source is known and trusted, due to the risk of the attachment containing viruses or other harmful programmes.
- I will only use my own user names and passwords which I will choose carefully so they cannot be guessed easily.

Social Media

- I will only use chat and social networking sites for school purposes that are approved by the school.
- When using social networking sites and other services for personal use I will not say anything that could bring the school, staff members or any member of the school community into disrepute.
- I will ensure that I do not refer to students, pupils, parents/carers or school staff
- I will not engage in any online discussion about the school or any members of the school community unless this is in an approved context e.g. school own Twitter account
- I will not attribute my personal opinions to the school on sites and will make clear that they are my own opinions
- I will immediately report any online discussion that could impact on the school / staff reputation and any negative postings about any member of the school community
- I will not 'friend' parents and / or students on social networking sites.

Conduct

- I will only use school equipment for the purposes of learning and teaching.
- I will not engage in any on-line activity that may compromise my professional responsibilities or compromise the reputation of the school or its members. This includes use of the school e-mail account, logo or my school role.

- I will not try and access sites that are illegal.
- I will only use my personal ICT in school for permissible activities and I will follow the rules set out in this agreement when using it.
- I will not use my personal equipment to record and store images / video of children.

- I will not send personal information by e-mail as it is not secure.
- As agreed by the governing body, if I use Dropbox it will only be to store and share policies and/or non-personal documents.

Promoting Safe Use by Learners

- I will model safe use of technologies and the internet in school.
- I will educate young people on how to use technologies safely according to the schools E-safety programme.
- I will take immediate action in line with school policy if an issue arises in or out of school that might compromise learner, user or school safety; or if a child reports any concerns.
- I will monitor learner behaviour online when using technology and deal with any issues that arise.

Problems

- I will immediately report any illegal, inappropriate or harmful material; or incident I become aware of, to the e-safety co-ordinator or head teacher.
